

# Are you a Student with a Disability or Neurodiversity?

*We would like to hear from you!*

If you are a student with any kind of disability, learning difference or neurodivergence we would love to hear from you about your experience in Higher Education during COVID-19!

We would love to hear your voice about your experiences at this time as part of a doctoral research study. This can be done through online meetings or a phone call, it's up to you! Your voice could have long term effects on policy, even after the virus is gone.

Email the researcher Jodie Enderby (*GLEA PhD Research student*) for more information or to register your interest at : [enderbyj@uni.coventry.ac.uk](mailto:enderbyj@uni.coventry.ac.uk)

**With the chance to  
win a £25 Amazon  
voucher!**
